

Uric Acid

is the base of all people who live well, and is directly responsible for more suffering than any other element in the human family than all other combined.

URICENE

(Smith's Rheumatic Cure)
Cures Rheumatism.

It is absolutely safe and sure solvent of uric acid. It enters the circulation at once, reaching the poison and changing it into a harmless urate, which is carried from the system by the kidneys.

URICENE

removes the great cause of disease.
PRICE - - 50 CENTS.
Ask your druggist for it, or two bottles will be sent by express, prepaid, for \$1.15. Per bottles for \$2.00.

GEO. G. SMITH,

South Londonderry, - Vt.

Something New—Wormwood Liniment.

Real Estate
FOR SALE.

In order to settle the estate, the following property of the late E. M. KNAPP, situated in the town of Danburton, is offered for sale:

The home farm, consisting of 140 acres of mowing, tillage and woodland, with good buildings, consisting of one-story house with wing and L, 60 foot long, with usual outbuildings. This farm is well watered and fenced, and has a large apple and sugar orchards. A part of this farm is covered with a very growth of hemlock, oak, ash, maple and other woods.

Also a pasture and timber land, containing 82 acres, equal to any in the county.

This property is especially valuable for its quantity of fine timber and wood. Timber and other are invited to look over.

Inquire of Wheeler W. Knapp, on the premises, or of Alvin Knapp, Administrator, Brattleboro, Vt.

THE NEWS IN BRIEF.

700 Dead

In the Devastated Section of Minnesota
—What of the Future?

Dr. Cowan, corner of Pine county, Minn., believes that the dead list in the country devastated by forest fires will reach 700. It is impossible to give a correct statement even of the bodies found. A serious problem for the survivors is the disposal of the dead animals. The region about Hinckley is littered with the carcasses of horses, cows, hogs, deer and even a few moose. The terrible stench from the few people left. A courier brings a report that the bodies of 23 Chippewa Indians—bucks, squaws and papooses—lie upon the baked sands between Pokegama, Minn., and Opstead, a small settlement on the eastern shores of Lac Mill Lake.

The state relief committee say that it is impossible that lumbering, which has been the chief industry of the burned country, will ever amount to much again. All of the country burned over is now ready for the plow, and an attempt will be made to settle it as a farming section. It is planned to rebuild Hinckley at the junction of two railroads.

The fire broke out again the latter part of the week. The north-bound St. Paul & Duluth limited train was stopped Saturday night at Rush City by fire. At Pine City there was the same pall of smoke and red glow of sky that told Duluth of Hinckley's destruction a week ago. The people at Pine City, in a body, fled to the river and lake. The fires, however, did not reach the town. At Kerriek, Barnum and Carlton fire fighting was in progress all day because of the gale.

Murdered by Highwaymen at Billerica, Mass.

On Tuesday night Duray Foster, a respected citizen of Burlington, Mass., was held up and robbed by three highwaymen on a lonely road in Billerica. He was on his way home from Boston, having come out on an evening train. Mr. Foster went on home, where he summoned assistance and started in pursuit of the robbers. After a drive of two miles they were overtaken. The constables and another man tried to arrest them, leaving Mr. Foster alone in his wagon. Pistol shots which were fired by the robbers frightened Foster's horse, which ran away. The robbers escaped, and it was discovered that one of the bullets fired struck Foster in the head, killing him instantly. Wednesday night Patrick Sullivan, who is believed to have been one of the highwaymen, was arrested in Somerville.

Two Men Killed by Bad Air.

An endeavor to clean out an old well in Newport, R. I., Monday, cost two lives and placed several others in jeopardy. Charles Johnson, a Swede, married and father of two young children, had gone down by a short distance when, without even a cry, he fell into the two feet of water and mud at the bottom. George Underwood, son of the owner of the premises, descended to help him, and he, too, met a like fate in the deadly air. The latter leaves a widow and three small children. Two or three others started down the ladder to bring out the unconscious men, but they, too, were badly affected. Two returned and one fell in but was rescued before he became exhausted. The others were taken out and though still showing signs of life, were too far gone to be revived when medical assistance came. The well had been covered for months.

Report on the Corn Crops.

In the report of the statistician of the department of agriculture for September a decline is shown in the condition of corn to 63.4 from 69.1 in the month of August and 95 in the month of July. The change is marked in nearly all of the great corn states. In most of the Southern states the condition has risen, and a good crop is certain. Reports from eight states—Indiana, Illinois, Wisconsin, Iowa, Missouri, Kansas, Nebraska and South Dakota—in response to a special inquiry, show that out of an aggregate of 40,873,984 acres planted in these states there have been cut up for fodder or abandoned 15,506,000 acres, or 38 per cent, which is a little over 20 per cent of the entire area planted in this country.

The Eiffel Tower to be Erected in Baltimore.

A syndicate of capitalists has bought the Eiffel tower and plans to bring it to Baltimore. The promoters of the Baltimore centennial celebration, which is to be held in 1907, are said to be the purchasers. The cost, including transportation of 7000 tons of metal of which it is constructed, is said to be about \$500,000. About two weeks ago one of the French directors of the Paris exposition to be held in Paris in 1900 agreed to dispense with the tower.

A Watermelon Tragedy.

Clinion Thomas, a farmer near Dykesville, La., who owned a melon patch and was troubled by the raids of the boys of the neighborhood, recently put poison in some of the finest melons and awaited results. His own son, Felix, George Briggs, a neighbor's son, and a man named Jacob Muir were found dead in the patch one day last week. When Briggs saw that Thomas had poisoned the melons and caused the death of his son he shot him dead. The murderer escaped.

W. T. Collier & Co., general storekeepers at St. Petersburg, Pa., were robbed of \$70,000 in notes, bonds and cash one night recently.

Harold M. Sewall, consul general to Samoa under Cleveland's first administration, publicly announced his withdrawal from the Democratic party at a Republican meeting in Augusta, Maine, last week.

A cloudburst at Bethlehem, Pa., Saturday caused damage to the extent of \$60,000. Many poor people sustained a severe loss by the flooding of their dwellings in some places to the second floors.

Fires were started by lightning in the villages of Malta and Henrietta, Ill., Saturday. In Malta 14 buildings were consumed, and the loss is estimated at \$50,000. In Henrietta six or seven buildings were destroyed.

City Mill No. 2, of New Bedford, Mass., resumed operations Monday on the old schedule of wages, and before the end of the week every mill in that city making yarn exclusively will be running. It is not known when the cloth mills will resume.

The body of Robert Johnson was found in the woods at Piermont, N. H., Sunday. He had been dead so long that the head had fallen from the body. After injuring a man in a fight last spring Johnson fled to the woods, taking with him a gallon of rum.

The tomb containing the remains of Gen. William H. Hull, of the war of 1812, in Newton, Mass., was broken into early Saturday morning, and the skeleton of Gen. Hull removed. The police think it may have been the work of medical students.

Baron Von Helmholtz, the great scientist, the promulgator of the doctrine of the conservation of forces, the inventor of the ophthalmoscope, to which thousands of persons owe their eyesight, and the leading man of science in Germany, if not in the world, died Friday at his home in Berlin aged 73.

The cotton crop of this year is large, but not a record breaker. The secretary of the New Orleans cotton exchange figures out the total crop for 1893-94 as 7,549,817 bales, 800,000 bales larger than its predecessor, but 1,500,000 less than that of 1891-92, which holds the record.

Horace B. Schilly, a cattleman, was found riddled with rifle balls and badly mutilated on Reno mountain, near Phenix, Ariz., Saturday. It is thought this is the case of the Tewksbury faction. Schilly is the last of his family. The Pleasant Valley feed has now numbered thirty-one victims.

The town of Dalton, eight miles west of Massillon, Ohio, was fired by an incendiary Sunday, and 47 buildings, exclusive of barns, were destroyed. The loss will reach \$250,000. Before the fire was started, the firehouse was disjuncted, and the pipe that carries the water from the reservoir was stopped up with a carpet.

Huntley, Ill., was visited Saturday evening by the worst electric storm in its history. Fourteen barns were blown down or destroyed by lightning. One hundred horses and cattle were killed, 10 houses unroofed and corn blown down by fields. The damage amounts to about \$300,000.

The supreme court of Oklahoma on Saturday rendered a decision nullifying 400 divorces granted by probate judges since March, 1893.

The divorce law of Oklahoma permitted severance of the marriage tie for any of 13 causes, after ninety days' residence in the territory. In many cases people who have been granted divorces have married again and are therefore guilty of bigamy.

The State Fair.

The Four Day Exhibition Was a Great Success.

Fair weather favored the directors of the state fair, held last week at Billings Park, White River Junction, and the attendance throughout the four days was very large. The exhibits in every department were excellent and very full. Among the many exhibits, that of needlework was especially large and interesting. The floral display as a whole was noteworthy. The exhibition of working cattle and other live stock was unusually large. H. Reese, of Charlotte took five first premiums on White Chester swine. G. W. Flagg of Braintree and Phillips Brothers of Glover had large exhibits of Cotswold sheep, and C. M. Winslow of Brandon took the palm in Ayrshire cattle. Among the events of interest the second day were two matched horse races. The first, for \$200, was won by E. J. Tinker's black stallion Nixon, by Abdullah Wilkes; J. Utton's black stallion New Mark, by Holdane, second; time, 2:30, 2:33, 2:28, 2:24. The other, between C. H. Nelson's black stallion, Pullman, and J. D. Brown's chestnut mare, Neleva, for \$200, was won by the former, time 2:34, 2:36, 2:40. Seventy-five yoke of oxen appeared in the cavalcade of working cattle. Among these were ten yoke from Woodstock, averaging 4,100 pounds per yoke. The French coach horses from the Speedwell farm at Lyndon attracted much attention. The attempt of the great stallion, Nelson, 2:09, to break his record proved a drawing card. The track was nearly, but he made the mile in 2:14, lowering the state record of 2:12 made by him the day before. This was the fastest mile he has trotted thus far this season. The Junction horse stakes for foals of 1891, trotters, best two in three, were won by King Gillig, chestnut stallion, by Gillig, in straight heats; Victor Viking, brown gelding, by Viking, Hood Farm, second; and Maud Gillig, chestnut mare, by Gillig, Utton, third; time, 2:20. On the last day Gov. Fuller made an address on good roads.

The September Atlantic.

The September number of the Atlantic Monthly furnishes an unusually large amount of attractive fiction. Besides Mrs. Deland's "Philip and his wife," now within a month of conclusion, there are three short stories—"Tante Catrinite," by Kate Chopin; "For their brethren's sake," a powerful tale of a Derbyshire town, during the great plague, by Grace Howard Pierce; and Mrs. Catherwood's "The kidnapped bride," the last of a series of early French-American stories. "Old Boston Mary: A remembrance," by Josiah Flynt, tells the tale of a strange old woman of the tramp class so vividly as to leave one uncertain whether it is fiction or fact. Mrs. Lohise Herrick Wall's sketch, "In a Washington hotel," is as good as a story, and "Up Chippewa and down again," by Charles Stewart Davidson, is again a record of actual events—a thrilling narrative of Alpine adventure.

"The capture of Niagara," one of the greatest of man's industrial achievements, and its enforcement to the manufacture of immense quantities of electrical power to be used hundreds of miles away, will be the subject of an illustrated descriptive article by E. Jay Edwards, in McClure's Magazine for October.

Vermont has another labor organization.

The state council of Vermont of the order of the United American Mechanics was instituted at White River Junction last week by National Councilor A. E. Dodge of Manchester, N. H., and John Sawyer of Philadelphia. The following officers were elected: State councilor, A. E. Glidden of Barre; vice councilor, W. H. Taylor, Bellows Falls; secretary, E. F. Smith, Barre; treasurer, R. B. Guernsey, Montpelier; inductor, G. E. Blanchard, White River Junction; protector, G. B. Lund, Barre; representatives to national council, one year, G. F. Blanchard; two years, E. F. Smith, Barre; three years, H. D. Ryder, Bellows Falls.

To restore gray hair to its natural color as in youth, cause it to grow abundant and strong, there is no better preparation than Hall's Hair Restorer.

If you suffer from Carter's Little Liver Pills for sick headache, biliousness, or constipation, you will never without them. They are purely vegetable, and easy to take. Don't forget this.

Peddlers and some unscrupulous grocers will tell you this is as good as "Beware of Pearline." If your grocer sends you an imitation, be honest—send it back.

every day that you try to worry along without Pearline. And what's the use? What do you gain? You can't have washing done more safely than it's done with Pearline. And it can't be done more cheaply—if it's done safely.

Where you lose is in time and labor. Pearline saves half of both. You lose in clothes, too. You can't rub them clean in the old way on the washboard, without rubbing them to pieces. All these things that you lose are money.

Beware of Pearline.

THE VERMONT NEWS.

Assaulted and Robbed.

\$88 Taken from Rollin Sherman of Fairfield by Two Men—Mr. Sherman Badly Injured.

Two masked men assaulted Rollin Sherman of Fairfield Friday night and robbed him of nearly \$90. Mr. Sherman lives alone on a farm east of St. Albans Hill. About dusk, as he was at work in the barn, two men wearing masks suddenly attacked him. Mr. Sherman was overpowered, his hands tied behind him and his feet bound. The robbers then went through his pockets and took \$88.75, besides a jack knife, a pocket book, snuff box and the key to his house, and hurried away.

Mr. Sherman was in the barn all night and only succeeded in freeing his hands after the most violent exertions in the morning. He immediately alarmed the neighbors. A search of the barn revealed that the hay mow had been occupied some time by intruders, probably the robbers. From their snug retreat they had watched Mr. Sherman and pounced upon him at the most favorable opportunity. Mr. Sherman was considerably injured in the struggle. The nasal bone is broken, there are several cuts on his face, and one eye is closed and so badly injured that it may not be possible to save it.

Honors to Vermont Veterans.

Robert Pratt, the Republican nominee for mayor of Minneapolis, Minn., is a native of Rutland and was mustered out of service as a captain in the 5th Vermont regiment. Charles M. Start, nominated for chief justice in the same state, was born in Franklin county and enlisted in Company I of the 10th Vermont infantry. Gov. Sheldon, whom the Republicans of 1892, 1894, have renominated, hails from Johnson, and was mustered out of the service as captain of Company I of the 7th Vermont infantry.

Husband and Wife Killed on the Track.

Mr. and Mrs. Orson Higgins of Benson were instantly killed while attempting to cross the railroad track ahead of an express train at Putnam, N.Y., Monday. Mary Manley, a little girl, also an occupant of the carriage, was fatally injured.

The centennial celebration of the organization of Trinity church parish in Rutland will be held Sept. 25-6.

The 26th annual convention of the state Sunday school association of Vermont will be held in St. Albans Oct. 10-18.

Lightning struck a large barn belonging to William Bowles in Woodford Monday and it was burned with six tons of hay, grain and other contents.

Governor-elect Woodbury now expects to visit the various state institutions, previous to his inauguration, in order to discuss upon them intelligently in his message.

Mrs. Geo. Farrington, wife of a farmer living on North avenue, Burlington, committed suicide Monday by firing a rifle ball through her head. She had recently made other attempts to take her life, but without success.

John W. McAuland, proprietor of the Boston store, the largest mercantile house in Burlington, died suddenly of heart disease Monday morning. He was 28 years old and leaves a wife and one child.

The ninth annual convention of the Vermont Christian Endeavor union will be held at Newport October 2 and 3.

Among the prominent speakers already announced are Rev. Dr. L. L. Greene of Somerville, Mass.; Rev. Dr. C. A. Dickinson, pastor of Berkeley Temple, Boston, and J. W. Baer, secretary of the United society. Between 300 and 400 delegates are expected.

The creditors of the Northwestern Guaranty Loan company of Minneapolis are forming a permanent organization for the purpose of liquidating its affairs. The capital will be from \$1,000 to \$3,000,000, and the entire assets of the guaranty company will be turned over to the new corporation. F. L. Eaton of Montpelier is a member of the committee having the project in charge.

Vermont has another labor organization. The state council of Vermont of the order of the United American Mechanics was instituted at White River Junction last week by National Councilor A. E. Dodge of Manchester, N. H., and John Sawyer of Philadelphia. The following officers were elected: State councilor, A. E. Glidden of Barre; vice councilor, W. H. Taylor, Bellows Falls; secretary, E. Six Months' Trial.

Six months ago in looking round for a flour that would be sold at a low price and at the same time be a fine quality family flour we found one we thought was just what we wanted.

Six months trial has proven the wisdom of this choice, as every barrel of flour has given perfect satisfaction, and our sales on this brand have steadily increased.

We are selling this flour for the small sum of \$3.50 per barrel.

Remember this is no cheap St. Louis flour, but just the thing every one wants who uses from same barrel for both bread and pastry.

M. I. MATHER,
West Brattleboro.

GO SLOW.

DON'T believe all you hear and not more than half that you see.

YOU will hear often of droll stories about men who have taken treatment in some liquor cure and have gone back to drink, but you think that you will never find a single one who has taken the Morrill treatment and gone back to drink, but what might have kept sober if he had had a mind to.

YOU can't carry gunpowder and live loads in the same pocket long. Neither can you keep vice company and be with those who are drinking and not being in danger of being one of their number. If you are not worth the effort of not saving, that is if you consider yourself of so little value that it is not worth the while to quit your vice companions and be a man, then we would advise you to let all liquor alone. And yet we have men who do stay all right under such circumstances, but we simply say you are taking a big risk. The Morrill cure is always sure. No other is sure every time. The Morrill is absolutely sure. Yet you can go the devil if you choose to, taken after taking the Morrill. Twenty institutes in Vermont. Main office, Brattleboro.

D. L. GRIGGS, Sec.

Railroads.

BOSTON & MAINE RAILROAD.

ON and after July 2, 1894, trains on this road will leave Brattleboro for all points north at 9:25, 11:10 a. m., 2:18, 5:50 and 10:20 p. m. The 9:25 train is accounted to White River Junction.
